THANK YOU FOR YOUR INTEREST IN SIZZLE MEDIA. WE AIM TO DEMONSTRATE WHY WE ARE THE BEST PARTNER TO HELP YOU INCREASE BUSINESS BY LEVERAGING THE POWER OF THE INTERNET.

WE DELIVER RESULTS!

Sizzle Media Ltd was started in response to the ever-declining level of customer service in the web design and online marketing industries.

As a Greater Manchester web design agency we're determined to cut out the mumbo-jumbo from technology, and assist our clients in leveraging maximum results from the Internet through stunning web design and targeted online marketing.

Here at Sizzle we like to simplify the web. For us it's the equivalent of a very busy city centre high street that is open 24/7 every day of the year. Our job is to make sure the passing shoppers find your site, come in and choose to buy your products and services. And then leave you their details so you can contact them again when you have something of interest for your new customer.

WHAT YOU CAN EXPECT FROM US

Unlike many web design companies, we aim to complete jobs quickly, within budget, and with minimum of fuss. Our 'customer first' approach allows us to develop your online business with no unnecessary delays.

With over 15 years of internet and online marketing experience, we understand that the Internet is a critical aspect of any modern day business. But first and foremost business is about people and their aspirations.

As business people we understand the challenges facing small to medium sized enterprises in these testing times. Our directors have been awarded the 'Queens Award for Enterprise Promotion' for over 20 years of dedication to helping businesses succeed, including a string of creative and business awards.

At Sizzle we enjoy the recognition awards bring but its not what drives us forward. Seeing our clients succeed in achieving a return on investment with our help, and delivering solutions that make a difference are the cornerstone of Sizzles Medias 'Customer First' business philosophy.

Every member of the Sizzle team are focused on understanding your business and making your online project succeed.

OVER THE LAST 15 YEARS WE HAVE DEVELOPED HUNDREDS OF WEBSITES RANGING FROM SINGLE PAGE PROJECTS, THROUGH TO FULLY BESPOKE ONLINE SHOPPING SYSTEMS FOR THE RETAIL SECTOR.

From my first meeting with Sizzle Media they took the time to listen to my concept and translated it into an outstanding website. With amazing artwork, design and expertise in the business, the whole team showed tremendous dedication to my project. The amount of support on branding and search engine optimisation far exceeded my expectations. They genuinely care about and want their customers to succeed in business and they don't close their door once your site is up and running.

Sizzle Media have been a great team to work with. Having worked with many Manchester design agencies over the last 25 years, I can honestly say that I have rarely worked with a more flexible and professional agency. They fully understood our requirements and dealt with any issues promptly. Me and my team are more than happy with service and would happily recommend Sizzle Media to our customer base.

Sizzle Media have worked with us since we opened our doors in 2005, developing everything from our logo, through to our website, managing our marketing budget and advising us on all areas of our brand. Whitestone Solicitors are now a national brand and offer a wide portfolio of legal services. This has all happened with Sizzle Media by our side and we highly recommend their services to any company looking for a professional web design and branding service.
